FACULTY OF HEALTH SCIENCES – THERAPEUTIC RECREATION

Congratulations from Dr. Sienna Caspar, Program Coordinator of the Therapeutic Recreation program in the Faculty of Health Sciences – University of Lethbridge

Congratulations on the final stage of your journey in the Therapeutic Recreation Program. This important milestone of the program will provide you with many rich and valuable learning experiences!

We worked closely with the Alberta Therapeutic Recreation Association, employers, supervisors, and practitioners as we developed this internship experience. You will benefit from working with experienced supervisors, practitioners, allied health professionals, and researchers who we anticipate will provide you with a first-rate experience. We hope that this partnership model fosters a learning culture that supports continuing professional development and lifelong learning.

On behalf of all faculty and staff in the Faculty of Health Sciences, I extend best wishes to each of you as you embark upon your internship journey.

Best regards,

A handwritten signature in black ink, appearing to read 'Sienna Caspar', written in a cursive style.

*Sienna Caspar, PhD, CTRS
Program Coordinator, Therapeutic Recreation
Faculty of Health Sciences, University of Lethbridge*

OVERALL THERAPEUTIC RECREATION PROGRAM DESCRIPTION

Our Bachelor of Therapeutic Recreation is the first of its kind in Alberta and one of only nine degree programs leading to therapeutic recreation certification in Canada. The program is accredited through the Committee on Accreditation of Recreational Therapy Education (CARTE) and meets the requirements of the National Council for Therapeutic Recreation Certification (NCTRC). This ensures that graduates from this program are eligible to become Certified Therapeutic Recreation Specialists (CTRS).

- NCTRC: The non-profit organization, which was established in 1981, is the one and only internationally recognized credentialing organization for the profession of therapeutic recreation (NCTRC, 2018). It is dedicated to professional excellence by ensuring that recreation therapists meet their stringent requirements and maintain continual growth in the profession. Only these qualified individuals may gain and maintain the Certified Therapeutic Recreation Specialist (CTRS) credential.
- CARTE: An approved accreditation program under the Commission on Accreditation of Allied Health Education Program (CAAHEP) and whose overall mission is to promote the highest levels of professional competence of recreation therapists.

Summary of what students learn prior to their internship:

- Foundations of Therapeutic Recreation: History, development, and benefits of the profession, as well as the different models of service.
- Program planning in Therapeutic Recreation: Development, application, and evaluation of therapeutic recreation programming.
- Recreation and leisure across the life course: Overview of the characteristics, evolution, and functions of leisure in Canada across the life course.
- Processes and techniques in Therapeutic Recreation: Theoretical and practical aspects of the procedures necessary for assessment, planning, implementation, management, and evaluation specific to therapeutic recreation services.
- Therapeutic Recreation for diverse populations: Introduction to the different characteristics and needs of individuals with varying abilities in regard to therapeutic recreation domains of service delivery.
- Communication and Counselling Techniques: Knowledge and skills required to utilize effective communication and helping behaviours designed to facilitate change in the leisure behaviour of individuals with diverse needs.
- Issues and trends in Therapeutic Recreation: Contemporary issues within the profession.
- Research Design in Therapeutic Recreation: Understanding of research methodologies relevant to the profession, as well as an overview of current assessment and evaluation instruments.
- Administration in Therapeutic Recreation: Essential management and effective practices of the profession in various settings.
- Modalities, Interventions and Facilitation Techniques: Skill in a variety of modalities and facilitation techniques used by therapeutic recreation professionals in their implementation of evidenced-based therapeutic interventions.

Support Courses

- Human Anatomy and Physiology: A study of the human body from investigation of anatomical systems to physiological functioning and biomechanical processes of movement.
- Abnormal Psychology: Examination of behaviour disorders, theories of causation, descriptions of the disorders, and strategies of various therapies throughout the lifespan.
- Human Development Across the Lifespan: Examination of human growth and psychological development across the lifespan. Overview of the interplay of biological, sociological and psychological forces in human development.

Elective Courses

- Students also have two (2) electives, which they may choose from several different faculties and interests.

SUGGESTED INTERNSHIP TIMELINE

	Tasks	Completed Date
WEEK 1 – 2	Orientation to Facility / Department <ul style="list-style-type: none"> • Services delivered • Communication • Professionalism • Writing goals & objectives • Time management • Risk Management • Infection Control 	
	Review Policies and Procedures Manual, as well as important legislative acts (e.g., FOIP, Mental Health Act, etc.)	
	Discuss & review student's goals	
	Discuss the evaluation forms	
	Complete the following forms: <ul style="list-style-type: none"> • Confidentiality Agreement and Crisis Support Plan, and Internship Agreement Form • SMART Goals 	Due: After 2 days Due: End of week 2
	Introduction to Other Disciplines / co-workers	
	Review University Assignments / Tasks	
	Brainstorm Service Project Ideas	
	Observe an intervention (group or 1:1)	
Observe an Assessment		
WEEK 3 – 4	Define Project & Outline service project	Due: End of Week 3 (5%)
	Complete Initial Assessment	
	Caseload Minimum of 1 person/client/patient	
	Co-facilitate an intervention	
	Begin the Self-Reflection online discussion on Moodle	Due: End of Weeks 3-12 (20%)
WEEK 5 – 6	Continue work on Service Project	
	Midterm Evaluation given to Agency Supervisor to review prior to completion	
	Complete Progress Notes	
	Complete Discharge Summary	
	Target: 25% of supervisor's caseload	
	Facilitate an intervention on your own	
	Complete minimum 3 Assessments	
WEEK 7, 8, 9	Target: 50% of supervisor's caseload	
	Continue to complete more Assessments	
	Complete evaluations on activities/interventions/programs	
	Midterm Evaluation	Due: End of Week 8 (10%)
	Complete Update on Service Project	Due: End of Week 7 (5%)
	Continue to contribute to the online Self-Reflection discussions	
WEEK 10,11,12	Target: 75% of supervisor's caseload	
	Continue to complete more Assessments	
	Continue to complete evaluations on activities/interventions/programs	
	Complete the final Self-Reflection online discussion on Moodle	Last one End of Week 12

WEEK 13 – 14	Service Project Presentation to Departmental Staff and Site Supervisor	
	Final Evaluation given to Agency Supervisor to look over and set a date for a review	
	Submit SMART Goals evaluation	Due: End of week 14(5%)
	Target: 100% of supervisor's caseload	
WEEK 15	Service Project Final <ul style="list-style-type: none"> • Presentation Assessment • Evaluation Form 	Due: End of Week 15 (20%)
	Student Self-Evaluation Form	Due: End of Week 15
	Documentation of Internship Form	Due: End of Week 15
	Exit Interview / Final Evaluation	Due: End of Week 15 (35%)
	End professional relationships with clients and staff members. Thank people and stay in contact with your supervisor.	

As the student takes over their supervisor's caseload of clients, student supervision and guidance are still necessary.

PURPOSE, STRUCTURE, AND EXPECTATIONS

Purpose – By the end of the placement, students will be able to develop and demonstrate classroom skills (program planning, ethics, professional behaviour) in a practical work environment. The students will develop clinical practice skills and abilities under the guidance of a Certified Therapeutic Recreation Specialist (CTRS). During the internship the students will be assessed on competencies related to Therapeutic Recreation (TR). This experience will lead to further understanding of critical issues related to practice and understanding of how TR fits into health and human services. By the end of the placement, students should transition to as close as possible to 100% of the supervisors work/caseload. This course will meet all NCTRC requirements for a successful internship experience, leading to potential CTRS designation.

Structure – Under the supervision of a CTRS, the internship will be completed over 15 weeks and a minimum of 560 full-time hours. The internship may be in an area of practice that serves students' needs and can be established through partnership with the Therapeutic Recreation program and the Faculty of Health Sciences. The practicum will run from September 4th, 2024 to December 13th, 2024.

Expectations – The student is expected to work full time hours throughout their internship to accumulate a minimum of 560 hours over 15 weeks. Also, some agencies may require additional hours (for example, Nova Scotia Health Authority requires students commit to 600 hours). The internship supervisor must be employed with a regular position at the sponsoring agency and work a minimum of 30 hours per week (some exceptions may apply). At least 50% of the supervisor's duties must be in therapeutic recreation (some exceptions may apply). The internship must be supervised by an academic supervisor and an agency supervisor, both of whom need to be a CTRS. The internship agency supervisor must be certified for at least one year prior to supervising students. The internship experience must be based on the therapeutic recreation process as defined by the current [NCTRC Job Analysis](#).

DEFINITIONS OF TERMS

Internship Coordinator– Networks and connects with potential supervisors and agencies to build capacity for internships, provides guidance on ensuring alignment with NCTRC, provides guidance to students seeking placement. Primary role is to coordinate and advise student internships.

(katelyn.scott@uleth.ca)

Internship Specialist –Supports students with pre-internship documentation requirements and internship applications. Works closely with Internship coordinator and agencies.

(marina.christman@uleth.ca)

Academic Supervisor/Instructor – a CTRS employed by the University of Lethbridge to monitor, advise, and evaluate the student in an internship for academic credit.

Site/Agency Supervisor – a CTRS who has been working in the field of Therapeutic Recreation. This person will direct, supervise, and evaluate the student in the completion of an internship in an agency to satisfy academic requirements and NCTRC Standards.

Internship – an experiential process of translating knowledge into clinical skills and abilities in a safe, structured, and supervised setting. The internship must be completed at one agency (some exceptions may apply) for 15 consecutive weeks for a total of 560 hours. Completion of the internship results in 15.0 credit academic hours.

Student – is enrolled at the University of Lethbridge, pursuing a Bachelor of Therapeutic Recreation. The student is expected to be an active participant in the learning and supervisory process. The student is expected to be professional and be knowledgeable of the Alberta Therapeutic Recreation Association and the Canadian Therapeutic Recreation Associations Code of Ethics and Standards of Practice (<http://www.alberta-tr.org/about-atra/code-of-ethics.aspx>; <http://canadian-tr.org/resources/>).

COURSE DESCRIPTION:

This course will meet all NCTRC requirements for a successful internship experience, leading to potential CTRS designation. Under the supervision of a CTRS, the internship will be completed over 15 consecutive weeks and 560 full-time hours. The internship may be in any area of practice that serves students' needs and can be established through partnership with the Therapeutic Recreation program and the Faculty of Health Sciences.

COURSE FORMAT:

On-site and in person practicum/internship, off campus, 15 weeks (560 hours)

PREREQUISITES:

TREC 3000, TREC 3100, TREC 3200, TREC 3300, TREC 3500, TREC 3700, TREC 4000, TREC 4100, TREC 4200, TREC 4300, plus all support and elective courses.

REQUIREMENTS:

Students are required to submit all required documentation to the Internship Specialist (Marina Christman) prior to placement start. We highly advise students to start on these items right away, as they can take quite a while to complete. Please also keep in mind that agencies might have their own documentation requirements in addition to the University of Lethbridge. Students need to submit the following:

1. Faculty of Health Sciences Consent Form
2. HSPnet Consent form (for sites that require this for application purposes)
3. Immunization Records
4. Immunization History Form
5. Original Police Information Check (including vulnerable sector search) – scan in your check then submit an original via mail – reduced cost form available on the website
6. Moodle Module “The Practicum Student Orientation” found here:
<https://moodle.uleth.ca/enrol/index.php?id=12381> – submit certificate upon course completion
7. DocuSign Forms – required 1 week prior to placement start include the following forms:

- a. UofL Informed Consent Risk and Indemnity Agreement
 - b. UofL Hazard Assessment
8. Any additional forms or documentation as required (by agency or UofL) and requested

COURSE OBJECTIVES:

By the end of the placement, students will be able to develop and demonstrate classroom skills in a practical in person work environment. They will also meet the following competencies:

1. Skill in the use of behavioral observations.
2. Skill in the use of functional performance testing.
3. Skill in gathering and use of relevant information from records, charts, family, significant others, and other professionals.
4. Skill in establishing an effective therapeutic/helping relationship.
5. Skill in applying individual and group leadership/helping techniques.
6. Skill in assisting the patient/client to process the treatment intervention, thereby enhancing self-awareness and formulating conclusions relevant to treatment goals and objectives.
7. Skill in facilitating a variety of evidence-based treatment interventions or modalities, such as games, exercise, community reintegration, etc., to reach treatment outcomes.
8. Skill in applying ethical and conduct standards to practice.
9. Skill in practicing safety, emergency, infection control and risk management procedures.
10. Skill in scheduling, time management, and prioritization of tasks and decisions.
11. Skill in managing productivity and labor resources.
12. Skill in assisting the patient/client in processing and applying knowledge and skills learned to meet individual needs.
13. Knowledge of word root, prefixes, and suffixes used in medical and psychiatric vocabulary.
14. Skill in use of standard charting signs, symbols and abbreviations.
15. The Recreational Therapy curriculum must include provision for clinical experiences, including clinical education/practicum and clinical internship/field placement, under the direct supervision of a qualified clinical supervisor (CTRS) in an appropriate setting.
16. Clinical education experiences must provide students with opportunities to practice and integrate the cognitive learning and associated psychomotor skills required of the profession, in accordance with professional standards of practice, to develop entry-level clinical proficiency and professional behavior as a Recreational Therapist as defined by professional guidelines for competencies necessary for safe and effective recreation therapy practice.
17. The clinical internship or field placement experience must meet the requirements of the international credentialing organization and laws and regulations for certification, registration or licensure. Competencies for practice as a recreation therapist must be a focus of development during the clinical internship or field placement experience.

REQUIRED TEXT:

TREC 4550 Internship Manual. Lethbridge, AB: University of Lethbridge.

COURSE ASSIGNMENTS AND EVALUATION:

Assignments are to be completed primarily on your own time. Some exceptions may occur due to confidentiality or access to information while on site, but any exceptions are based on relevance and require discussion between the student and supervisor. **Students can expect to spend approximately 3-5 hours per week working on assignments (example: forum posts, service project) outside of their scheduled internship hours.**

The following is a breakdown of how the internship will be evaluated. Please remember that the Internship in Therapeutic Recreation is a Pass/Fail in which students must obtain a GPA equal to or higher than 2.5

Assignment	Value	Dates to be completed
SMART Goals: Develop five (5) SMART goals that are relevant to your placement and the population. Needs to be approved by Agency and Academic Supervisors.	5% of final mark	Goals due End of Week 2, Evaluation due End of Week 14
Service Project: This project is to be decided upon in collaboration with the student's agency supervisor. The project should make a significant contribution to the department and will include a presentation to department, TR team, and staff. Needs to be approved by Agency and Academic Supervisors.	30% of final mark	Draft due End of Week 3 (5%), Update due End of Week 7 (5%), Final due End of Week 15 (20%)
Weekly Online Discussion: Students are required to complete a weekly submission that documents what they completed/learned, what competencies were covered, and how they felt about their experience.	20% of final mark	10 weekly entries Two entries per week (1 original post and one peer response) due at the end of Weeks 3-12 worth 2% per week.
Midterm and Final Evaluation: This mark will be divided between the midterm and final evaluation completed by the agency supervisor. The student should be included in the process and a meeting should be scheduled at both dates to go over grades and comments. The student is also expected to fill out a copy of the evaluations for further discussion/reflection.	45% of final mark	Midterm (Week 8, 10%) Final (Week 15, 35%)

Service Project**(Value 30%)****Due at the end of Week 3, 7, 15**

During the internship, students will take responsibility for a **major** project from inception to evaluation. The project must be useful to the agency and it must provide the student with a new learning experience. Students may work with other staff and their site/agency supervisor in all phases of the project but must be the person primarily responsible for the implementation and evaluation of the service project. Some aspects of the service project can be done on site (based on relevance and discussion with agency supervisor), however students can expect to spend time outside their internship hours working on this project (anywhere from approximately 2-3 hours a week).

Although the planning and implementation of a special event or community outing is an acceptable task for an internship student, it is not considered to be an acceptable service project idea.

The service project needs to connect with a minimum of three sub-tasks of the Job Task Domains (Table 4) according to [2021 CTRS Job Analysis Report](#) (NCTRC, 2021).

Some ideas for a service project include:

- a Comprehensive Program Plan,
- multiple Specific Program Plans/Protocols,
- an in-depth Case Study of a client/patient,
- a Special Grant for the agency,
- Adoption of a new service delivery model,
- Research Project,
- Volunteer Manual and orientation training,

- Community Recourse Manual and SPP,
- Best Practice Article review and proposal for conference/symposium, etc.

All service projects must connect to relevant research. A review of relevant research must be incorporated to help guide your project.

The **Service Project** is broken down into different sections to keep you on track:

1. OUTLINE [5%] - Due End of Week 3

An outline must be SIGNED by your agency supervisor and submitted for approval by the academic supervisor by the end of week 3.

Your Outline must address the following. Please be clear and concise. **Do not write in essay format.** Please use short sentences and bullet point answers:

- Provide a brief DESCRIPTION of your service project. (1 mark)
- Provide a detailed PLAN of how you will reach your goal including a SCHEDULE with dates. (1 mark).
- List any BENEFITS the agency will receive from your special project (1 mark).
- Describe how you will EVALUATE the effect or success of your special project (1 mark)
- List and explain the LINK between your service project and at least three (3) sub-tasks of the [NCTRC Job Task Domains](#) (1 mark).

2. UPDATE [5%] - Due End of Week 7

A brief report that describes the progress of your service project. Your Update must address the following. Please be clear and concise. **Do not write in essay format.** Please use short sentences and bullet point answers:

- Detail your progress toward your goal(s); work that has been done so far, reflections, and upcoming presentation ideas (2 marks).
- Describe any adaptations or modifications to your schedule, methods of measurement or evaluation (1 mark).
- Discuss any challenges you have encountered so far. If you do not feel you have experienced any challenges, then indicate what you will do to increase the level of challenge for your project (2 marks).

3. FINAL draft [20%] – Due End of Week 15

- For the final draft, please submit any written materials and presentation slides.
- Your presentation should be 20-30 minutes for the TR department, staff, and any other member of the agency that has interest in attending.
- Included in the evaluation of your service project is the **presentation assessment** (see page 34) for your site/agency supervisor to complete during your presentation and the **special service project evaluation form** (see page 35) to be completed after your presentation.

Goals/Discussion

(Value 5%)

Due at the end of Week 2 and Week 14

Fill out the attached **SMART Goals document** (page 30), sign it, have your site/agency supervisor sign it, and submit it to the academic supervisor by the end of Week 2.

SMART stands for Specific, Measurable, Action-oriented, Realistic, and Time-based. Remember you are to create 5 **professional goals** that are related to your work, duties, and role as a recreation therapy intern (review the NCTRC Job Task Analysis for ideas).

At the end of Week 14, complete the **SMART goal evaluation form** (see pages 31-32) with your agency/site supervisor.

Online Discussion

(Value 20%)

Due at the end of Week 3-12

At the end of Week's 3-12 (Sunday's at 11:59pm, MST) you will be required to respond to questions posted on Moodle by the academic supervisor. Each week students are required to make at least 1 original post and 1 peer response regarding the weekly topic. Additionally, students are expected to answer any question or discussion that arise from peers or the academic supervisor. Attached is a **guide to self-reflection** (see page 33) that would be useful for structuring your online submissions. Each week your submissions will be evaluated and given a mark of 0-2%.

Mid-Term and Final Evaluation

(Value 45%)

Due at the end of Week 8 & 15

To assist in ensuring that by the end of the internship, the student is competent in NCTRC's various job tasks, formal evaluations are to occur midway through the internship (week 8) and again at the end (week 15). These evaluations are to be thoroughly discussed with the student and shared with the academic supervisor. By conducting formal evaluations, the student, site/agency supervisor, and academic supervisor will be made aware of student strengths, as well as areas that require more support and guidance for improvement to occur.

Please note that as important as the formal evaluations are, it is also essential that ongoing informal evaluations/feedback are discussed with the student for continual growth and understanding on a day to day basis.

Grading for the mid-term evaluation is as follows:

- Above 80% means you are progressing exceptionally well.
- 70-80% means you are progressing well and that your skills are on track.
- Below 70% means you may need to put extra effort into ensuring you are developing the necessary skills.

Please see the attached **mid-term and final evaluation** (pages 38-42) form to be filled out by the site/agency supervisor and reviewed with the student afterwards. Students are also expected to fill out a copy of these evaluations and submit these to their site supervisor prior to receiving their site supervisor's evaluation of their progress. The mid-term evaluation completed by your site supervisor is to be submitted to your academic supervisor during week 8 and the final evaluation is to be submitted during week 15. The evaluations completed by the student do **not** need to be submitted to the academic supervisor, only the evaluations completed by the site supervisor need to be submitted. The intent of having students also fill out a copy of the evaluations is to enable critical thinking and further discussion with their site supervisor.

STUDENT RESPONSIBILITIES:

- Students are responsible to review the University of Lethbridge Therapeutic Recreation (TR) program Handbook found on the TR website <https://www.uleth.ca/healthsciences/tr>
- Students are responsible for the timely completion of all materials indicated in this course syllabus.
- Students must follow the academic regulations and policies laid out in The University of Lethbridge calendar. Students are responsible, in particular, for all sections in 4.c dealing with the Student Discipline Policy – Academic Offenses. [2024-2025 Academic Calendar](#)
- Please follow the specific agency policy guidelines for cell phone use.

LATE POLICY:

Late submission of assignments is strongly discouraged. The final mark on any assignment which is submitted late will be reduced by 15% for greater than 15 minutes past the due date and time and 10% for every 24 hours past thereafter. For example, if the mark earned is 85%, and the assignment is submitted 40 hours after the due date, the final mark on the late assignment will be 60%. Because late assignments allow the author more time to develop the work, this policy has been created so as not to penalize those students who submit their work on time. Any assignment submitted greater than 96 hours will receive a zero grade for that assignment.

Emergencies can occur during the term; when this is the case, the implementation of the late policy will be at the discretion of the instructor. Students are encouraged to reach out to the instructor in a timely manner for further information and instruction.

SICK TIME POLICY:

The internship experience should be continuous, uninterrupted and in person. In the case where serious illness or personal emergency causes absence or the inability to attend your placement, this needs to be communicated with your site/agency supervisor and academic supervisor. Additionally, students are expected to follow any policies the agency has regarding student illness/sickness. Any missed hours need to be made up.

COPYRIGHT STATEMENT:

All University of Lethbridge students, faculty and staff must comply with Canadian law and institutional license agreements pertaining to copyright. At the same time, keeping abreast of our copyright obligations and options is a complex task as copyright matters locally and globally are in flux and are likely to remain so for at least the near future.

The University's Copyright website (www.uleth.ca/copyright) is a source of current copyright information that includes:

- answers to common copyright questions (see the [FAQs](#)),
- guidance on whether you need permission or a license to copy a particular work (see the [Copyright Permissions Flow Chart](#)),
- guidance on assessing whether fair dealing may apply to specific instances of copying you wish to undertake (see the [Guidelines for Copying under Fair Dealing](#)), and
- a [permissions look-up tool](#) to help you determine the kinds of copying and other uses permitted by the Library's license agreements covering specific online journals and other online resources.

You are encouraged to contact the University Copyright Advisor (copyright@uleth.ca) for assistance with any copyright questions or issues.

PLAGIARISM STATEMENT:

The University of Lethbridge subscribes to Turnitin.com, a plagiarism detection service. Please be advised that student work submitted for credit in this course may be submitted to this system to verify its originality. Students must be able to submit both electronic and hard copy versions of their work upon request.

ACCOMMODATIONS FOR STUDENTS WITH A DISABILITY:

We are committed to creating a welcoming and accessible environment for all students. If you have a permanent disability, or prolonged condition, requiring academic accommodation, there are supports available to help you succeed. Please contact the Accommodated Learning Centre (ALC) ALC@uleth.ca to determine eligibility, need and appropriate accommodations. If you have already registered with ALC, you must activate your accommodations each semester. Early contact with ALC is strongly recommended as volume and complexity may impact the time required to put accommodations in place.

Academic accommodations, for permanent or temporary disabilities, provided in this course will be based on registration with and accommodation letters from ALC. We recommend students connect with their instructor, after activating accommodations, to discuss implementation.

GRADING BREAKDOWN:

The grading system for this course is consistent with that established in the Faculty of Health Sciences, effective May, 2002 (updated June, 2018). This course is a Pass/Fail.

A+, A, or A- is earned by work which is technically superior and shows mastery of the subject matter with considerable evidence of original thinking, demonstrated outstanding capacity to analyze and synthesize, and evidence of extensive knowledge base. Grades in this range are normally achieved by a minority of students. An A+ represents original insight and/or goes beyond course expectations.

B+, B, or B- is earned by work that indicates a good comprehension of the course material, a good command of the skills needed to work with the course material, and the student's full engagement with the course requirements and activities. Grades in this range are normally achieved by the largest number of students. A B+ represents a more complex understanding and/or application of the course material.

C+, C, or C- is earned by work that indicates an adequate comprehension of the course material and the skills needed to work with the course material; it also indicates the student has met the basic requirements for completion (i.e., all components of an assignment are completed satisfactorily).

D+ or D is earned by work that indicates minimal command of the course materials and/or minimal participation in class activities that is worthy of course credit toward the degree.

Letter	GPA	Percent	Letter	GPA	Percent
A+	4.00	95 – 100	C+	2.30	71 – 74.99
A	4.00	91 – 94.99	C	2.00	67 – 70.99
A-	3.70	87 – 90.99	C-	1.70	63 – 66.99
B+	3.30	83 – 86.99	D+	1.30	59 – 62.99
B	3.00	79 – 82.99	D	1.00	55 – 58.99
B-	2.70	75 – 78.99	F	0.00	0 – 54.99

Who's all involved in the internship/practicum experience?

The student's internship is supported by an interdependent relationship among the student, the academic supervisor, and the internship agency/site supervisor. Transparent open communication needs to take place between all involved. This is especially relevant if there are major changes taking place regarding the internship, uncertainties or questions about the internship process, or issues that are arising. By having open communication between student, internship supervisor, and academic instructor, additional insight/perspective can be provided, potentially negative situations can be mitigated before progressing further, and additional support/guidance with the internship process can be provided. In addition, each party has defined responsibilities (see below), which work together to help ensure a successful internship experience.

STUDENT RESPONSIBILITIES

Before the Internship (12 – 1 months prior)

- Reflect on what population, setting, agency, and geographic area you wish to complete the internship. Work with the academic supervisor and other resources to locate possible internship sites. Complete the Pre-Internship Placement Survey (<https://www.ulethbridge.ca/healthsciences/practicum-therapeutic-recreation>)
- Review and familiarize yourself with NCTRC Standards and the Student Internship Guide (nctrc.org).
- Prepare a current and up-to-date resume and cover letter with list of references.
- Thoroughly review the University of Lethbridge's Internship Manual.
- Start looking for CTRS supervisors in your preferred location and who works with your preferred population.
- Complete an application for internship to a specific agency. Prepare for your interview.
 - The agency will contact you for an interview.
 - Once interviewed you will be contacted by the agency if you are a successful candidate.
 - It is highly recommended that you provide the agency a response regarding your acceptance no later than 1 week after being contacted by them. Although you may have more than one potential option, it is important to be decisive and timely as this reflects on your professionalism and allows the agency time to plan accordingly.
- Confirm internship experience by completing Internship Agreement (see pages 28-29).
- Complete required documentation (<https://www.ulethbridge.ca/healthsciences/practicum-therapeutic-recreation>), U of L consent form (see page 26), U of L consent for collecting and disclosing student information form (page 43), and review any agency specific prerequisites for internships.

- Inquire about the agency's dress code by contacting the site/agency supervisor in advance and be sure to inquire about the working schedule and any other questions you may have.
- Prepare a personal budget to make certain you have the finances to support participation in the internship for 15 weeks.
- Ensure you have adequate accommodations set up for you during your internship.

During the Internship

- Each student is recommended to obtain a copy of the agency/site supervisor's active CTRS credential on the 1st day of the placement (NCTRC, 2019).
- Conform to policies, procedures and expectations of the internship agency. If there is a policy or procedure you have a particular concern about, speak to your site/agency supervisor and your academic supervisor. Complete the Confidentiality Agreement and Crisis Support Plan (see page 27).
- Adhere to CTRA and ATRA code of ethics.
- Attend placement as scheduled and inform the site/agency supervisor and academic supervisor in advance of any anticipated absence. Remember missed days could result in missed hours that have to be made up. In some instances, missing hours (and not being able to make them up within the term) can result in the student being required to repeat the internship. If ever unsure, contact your academic supervisor to discuss your situation if you are having to miss hours/unable to attend your placement.
- Create a relationship with your site/agency supervisor as soon as your internship begins. Establish and maintain good communication with your site supervisor. Let them know how you would like to receive feedback and assure them that you appreciate it. Discuss concerns with staff quickly when problems arise.
- Record time spent at the agency daily and ensure that the time log is regularly reviewed by the site/agency supervisor on a weekly basis (page 36).
- Present yourself as a professional at all times in dress, work quality, and attitude.
- Demonstrate interest in clients/patients, their families, staff, program ideas and school events and procedures.
- Ask questions at an appropriate time and in an appropriate place. Try to organize a consistent time and place to discuss the days/weeks events with your site/agency supervisor.
- Complete all assignments, weekly log sheets, journal entries, and documents/assignments as required by the Therapeutic Recreation program.
- Discuss activity plans with the site/agency supervisor both prior to and following the activity.
- Initiate the evaluation process by giving your site/agency supervisor the evaluation and asking when would be a good time to sit down and review it together.
- Near the end of the placement, remind the site/agency supervisor of when your last day is scheduled.
- Thank your site/agency supervisor and all staff that you have worked with.
- Keep in touch with your site/agency supervisor following the internship in a friendly and professional manner.

SITE/AGENCY SUPERVISOR RESPONSIBILITIES

Before the Internship

- Reflect on the process of taking a student. Make sure you have the time and ability to provide competent and ethical clinical supervision and mentoring of the student.
- Enter into an affiliation agreement with the academic institute if one does not exist.
- Discuss student selection criteria, agency expectations, policies and procedures, internship termination procedures, and goals prior to reviewing student's applications.
- Review resumes and cover letters of students applying for internship under your supervision and guidance.
- Prepare to interview student(s) for the internship opportunity at your agency.
- Start to develop a structured, sequential learning experience (see example timeline on pages 5-6)

During the Internship

- Show the student around the agency, introduce her/him to the patients/clients and other staff and discuss your program philosophy, schedules, policies and procedures, as well as the expectations you have for the student.
- Prepare the students to have agency specific identification badges and keys if applicable.
- Model professional standards of TR scope of practice in accordance with your provincial association and/or CTRA.
- Discuss your approaches with clients/patients and provide opportunities for the student to try out approaches with you close by.
- Review the Internship Manual thoroughly. Ask questions to students or academic supervisor if needed.
- Review learning objectives and make sure objectives are met.
- Show an interest in the student's experiences and questions. Provide regular, honest feedback; this is essential in the learning process.
- Take time to preview student's activity plans prior to implementation and provide feedback.
- Assist the student in networking within the agency and in the community if applicable.
- Take part in the evaluation process by completing the evaluation forms and discussing the results with the student. Regular communication will eliminate any surprises at evaluation time.
- Support the student's learning by recognizing that learning comes in all forms and there is often more learning from mistakes than successes. Allow her/him to try out new ideas, within reason, and encourage problem solving.
- Consult with the academic supervisor regarding the student's performance.
- Complete all paperwork in a timely manner and submit all forms to the academic supervisor.
- After the internship, recover agency property (keys, ID, etc.), provide letter of reference if requested by student, and maintain file of student in order to claim CEU credit for supervision.

Important note regarding students working with clients not part of supervisors designated caseload of clients, but still within the same internship agency:

- The student is to work closely with their supervisor and be provided supervision/guidance in working with their designated caseload of clients throughout the internship. If their agency supervisor feels that there

is a potential benefit for the student in working with clients (providing direct client care) who are not part of the supervisors' direct client caseload, then this needs to be discussed with the student and the academic supervisor. This may be relevant later on in the 4-month internship (not early in the internship / not prior to the mid-term evaluation). Basic guidelines regarding what needs to take place for this to occur include:

- The students' academic supervisor is aware of the plan and consents to the plan
 - The student is familiar with the location, risk factors, emergency plan and has the knowledge and skills to manage an unexpected situation
 - The student is aware of and trained properly to any departmental working alone standards and has completed hazard identification, assessment & control (HIAC) process
 - The student is able to reach their agency supervisor at any time if needed.
 - The risk assessment by the agency supervisor determines the situation as low risk patient, low complexity offsite intervention and high student skill/confidence
- Students can observe/shadow other disciplines and other recreation team members within the agency. Since they are not providing direct client care, this is welcomed to take place early on in the internship and does not need to be discussed with the academic supervisor unless there are concerns or questions regarding this.

ACADEMIC SUPERVISOR/INSTRUCTOR RESPONSIBILITIES

- Prepare students for the internship experience by arranging and organizing resources, information, and guidelines for the experience.
- Assign academic work to be carried out in the internship that will support the student's development.
- Conduct a fieldwork site visit (or a thorough phone discussion if a site visit is geographically impossible): This is meant as an opportunity to discuss concerns, observe and evaluate the internship progress, and ensure that the student is on track.
- Internship termination: This is a last resort as there are several early intervention strategies to help prevent this. If there is difficulty with a student's performance, the academic supervisor will conduct the following:
 - Document noted concerns/difficulties
 - Communicate the concerns to the student (and collaborate possible strategies and goals for improvement). Involve and communicate the concerns with the internship supervisor if necessary.
 - Set a time and date to re-assess the student's progress
- Communicate to both the student and the site/agency supervisor insights into how the student is performing.
- Be available to the site/agency supervisor if student concerns arise.
- Collect evaluations, grade assignments, and maintain a record of student's internship.
- Submit a final internship (Pass/No Pass), which takes into consideration the site/agency supervisors' evaluation of the student, the academic supervisor's own assessment and student's completed work.

HELPFUL TIPS FOR STUDENTS

Making the most of your internship experience

Take the time for self-awareness:

- Reflect on ethical considerations, personal values, beliefs, and biases
- Define your strengths and areas to grow on
- Become aware of your own signs of personal stress and burnout and ways to overcome them

Take the time to really know and understand your agency/field site:

- Know the mission and vision of the organization
- Get to know the different programs, services, and resources of the site
- Understand your role within the field site
- Get to know the community in which the site serves

Self-care

- Be conscious of personal signs and symptoms of undue stress and burnout and know when and how to discuss this with others if you need to
- Develop effective coping strategies to relieve stress and maintain lifestyle balance (work, social, and home life)
- Take the time for self-reflection
- Practice self-compassion

Feeling empowered

- Take the time to be critical about your personal perspectives and opinions
- Trust yourself and your instincts
- Take the time to create your own individual identity as an educated and trained professional
- Know your values

Other Tips:

- Accept learning as a lifelong process
- Continuously accept new challenges and experiences
- Accept both positive and constructive feedback as an opportunity for growth and gained perspective
- Tap into having a growth mindset – take the initiative to make the most of this learning opportunity.

Appendices

FREQUENTLY ASKED QUESTIONS

Q: When is a student eligible for the internship course?

A: An acceptable internship must be completed after all required therapeutic recreation, support, and elective coursework is completed.

Q: How long is the internship?

A: The internship experience will take place over a 15-week period. The total minimum number of required hours is 560.

Q: How do students select their internship sites?

A: With the assistance of the internship coordinator and internship specialist, students will select potential internship sites and may or may not be asked to make initial contact with the agency. Once an internship agreement is complete, the student submits the agreement form to the academic supervisor for final approval.

Q: Do students have to relocate for their Full Time 560 hour internship?

A: Since students completing this program are located in various communities across Canada, it's important that all students entering into this program recognize that they may have to relocate to a different community (such as to another province or city) to complete their internship. Thus, students entering into this program need to prepare themselves accordingly (financially, emotionally, mentally, etc.). The program has supports in place, such as an internship specialist and internship coordinator, to assist students in preparing for their internship, but the location of students and location of suitable internship supervisors/sites, means students need to be flexible to relocate, if necessary. We also encourage students to explore financial resources that may be available to offset the extra costs associated with having to relocate for the internship, such as bursaries or scholarships that might be available through the University of Lethbridge (UofL), the Alberta Therapeutic Recreation Association (ATRA), etc.

Q: When may students look for internship sites?

A: Students are encouraged to begin researching possible internship sites once they have completed 10 courses or 30 credits.

Q: Who qualifies as a site/agency supervisor?

A: According to NCTRC, an acceptable internship must have one (1) identified primary supervisor. The primary supervisor is responsible for working with the student on a consistent basis, coordinates all other secondary supervision and completes all evaluation materials and weekly reports pertaining to the internship experience. Individuals must have had their CTRS credential for one year minimum to supervise. You can go to www.NCTRC.org and place the supervisor's last name there and see if they have had their credential for 1 year.

Q: Can students get paid for their internship?

A: Typically, the internship is unpaid. The agency is not required to arrange living quarters for students or defray student living expenses while they are engaged in the internship; however, there are some that may partially cover expenses or allow for a stipend to be given to the student. Students are also responsible for parking, transportation, insurance, and other costs associated with the role.

Q: How will students be evaluated and graded?

A: Students will receive a pass/fail upon completion of their internship experience. The grade will be based on the agency supervisor's evaluation and satisfactory completion of assignments. Students are required to achieve a minimum final GPA greater than 2.5 in order to attain credit for TREC 4550.

Q: Can students complete an international internship?

A: Students must have a minimum cumulative GPA of 3.5 and submit a Letter of Intent written by the student about why they are interested in this experience, 3 Letters of References (supervisors, employers, faculty, etc.), and have an interview with the Internship Coordinator (and potentially other faculty). **Students looking to do an international placement must communicate this with the internship coordinator between 8-12 months in advance of their expected internship. Required documentation (letter of intent, reference letters, etc.) must be submitted to the internship coordinator no later than 7 months before the expected start of the internship.*

Q: Can students complete a non-CTRS placement?

A: Yes, however, if a student is looking to do a non-CTRS placement, it is important to remember that this means you will not qualify to become a CTRS through NCTRC's academic pathway. A non-CTRS supervisor still needs to meet certain criteria: 50% of their job is in the TR process; they have an undergraduate degree in Therapeutic Recreation or a related program; they work over 30 hours a week; they have worked as a recreation therapist for over a year; they can supervise the student for the full 15 weeks, 560 hours; and they are willing to do an interview with the internship coordinator to ensure a placement with them meets course requirements. Students must communicate with the internship coordinator if they are seeking a non-CTRS placement and are required to sign a waiver pertaining to this decision.

Q: Can students complete a virtual placement?

A: The internship is expected to be in person and to follow the format that the site supervisor primarily works (i.e., if they provide in-person TR services, students are expected to follow this same format). However, in some instances, it may be appropriate for a student to complete a virtual internship. For a student to qualify for a virtual internship, the following pre-requisites must be met: Have a minimum of 5000 hours of paid work experience as a recreation therapist (must provide proof of the hours worked in the role and that the experience used the TR process – job description/employment letter or equivalent); have a minimum cumulative GPA of 3.5; provide 3 reference letters (1 from employer, 1 academic, 1 recreation manager/supervisor/practice lead); provide a letter of intent (i.e., why you are looking for a virtual placement versus in person); and have an interview with the internship coordinator (if requested). The potential site supervisor must also meet certain criteria: have an undergraduate degree in Therapeutic Recreation or equivalent (Note – for this to be a CTRS placement, the supervisor must be a CTRS); be able to demonstrate in-person experience in the field; at least 50% of their job utilizes the TR process; willing to have an interview with the internship coordinator to ensure course requirements can be met through the placement; and their normal/typical duties are virtual. Just like any internship, the student is expected to follow the hours and format that the supervisor works; thus, students cannot request a virtual placement from a supervisor who provides TR services in an in-person/hands-on format. A virtual placement means that the supervisor already offers their TR services in a primarily virtual format. **Students looking to do a virtual placement must communicate this with the internship coordinator no less than 5 months in advance of their expected internship and provide the necessary documentation (i.e., letter of intent, reference letters, etc.) no later than 4 months prior to the expected start of the internship.*

Code of Ethics – Alberta Therapeutic Recreation Association, (2021)

Respect

Recreation therapists shall demonstrate respect by exhibiting due regard for the feelings, wishes, rights, and traditions of others in each of their interactions with clients, colleagues, support systems, and all others in a professional manner. The core value of respect will be carried out by:

- 1.1 Acknowledging inherent Human Rights guaranteed by law and treating each client with dignity and respect.
- 1.2 Recognizing that the client has the right to accept or refuse any recommended therapeutic recreation service.
- 1.3 Being self-aware and committed to negate personal biases within service provision and relationships.
- 1.4 Collaborating with the client(s) and/or care partners in setting goals and priorities of service as much as reasonably possible.
- 1.5 Providing clients with the information they need to make decisions about the options available to them.

Integrity

Recreation therapists shall demonstrate integrity by having strong moral principles and engaging in honest, equitable, and fair interactions. The core value of integrity will be carried out by:

- 2.1 Establishing the trust and confidence of each client and others through professional conduct and appearance.
- 2.2 Informing and communicating fees and cost of services to clients and/or helping to source other options.
- 2.3 Accurately representing the role of a recreation therapist's professional qualifications, skills, and competencies.
- 2.4 Exercising independent professional judgement by being aware and not compromising integrity by being pressured or negatively influenced by others.
- 2.5 Serving as an advocate for therapeutic recreation by promoting the purpose, values, and ethics of the profession.

Competence

Recreation therapists shall achieve high standards of competence by:

- 3.1 Being knowledgeable of the Standards of Practice and the Competency Profile for Therapeutic Recreation.
- 3.2 Committing to continuous learning and self-improvement that is essential to professional development and increased effectiveness as a professional and competent service provider.

- 3.3 Delivering services only in areas of expertise and within scope of practice.
- 3.4 Refraining from providing services when impaired by a substance or illness.
- 3.5 Supporting colleagues and students in advancing their abilities through supervision and/or teaching.
- 3.6 Documenting recreation therapy service delivery to identify strengths, areas of growth, and the treatment plan.
- 3.7 Ensuring referrals and requests are made to the appropriate sources when treatment is beyond the competencies or scope of the recreation therapist.
- 3.8 Functioning as a cooperative and collaborative member of the treatment team for the delivery of effective health care.

Non-Maleficence

The duty to do no harm and protect others from harm. Recreation therapists shall demonstrate avoiding the causation of harm by:

- 4.1 Maintaining professional boundaries by avoiding any activity or relationship which would exploit or cause harm to others or to the profession.
- 4.2 Accepting responsibility and accountability for one's own actions taking all necessary steps to prevent or minimize harm; and should harm occur, ensure appropriate disclosure
- 4.3 Reporting in good faith any incompetent or unethical behaviour of health care providers and/or others to the appropriate authorities.
- 4.4 Preserving and protecting the confidentiality of all personal and health information of the client, except where disclosure of such information is necessary to the service or treatment of the client or is a legal requirement of the courts (HIA, 2018).
- 4.5 Conducting all programs with due regard to the safety of the clients, colleagues, and facilitators.

2021 NCTRC Job Analysis – Knowledge Areas (NCTRC, 2021)

Knowledge Domain 1: Professionalism

Job Task Area 1.01. Develop professional relationships

Job Task Area 1.02. Maintain professional competency

Knowledge Domain 2: Assessment

Job Task Area 2.01. Conduct the assessment process

Job Task Area 2.02. Apply assessment data to plan care

Knowledge Domain 3: Planning

Job Task Area 3.01. Develop individualized plan of care

Job Task Area 3.02. Design program services

Knowledge Domain 4: Implementation

Job Task Area 4.01. Deliver program services

Job Task Area 4.02. Adhere to risk management protocols

Knowledge Domain 5: Evaluation and Documentation

Job Task Area 5.01. Document client progress

Job Task Area 5.02. Document program and client incident

Knowledge Area 6: Administration

Job Task Area 6.01. Maintain department documentation

Job Task Area 6.02. Assign and monitor personnel

For further details regarding these job tasks, please refer to [NCTRC 2021 Job Analysis Study](#)

STUDENT, AGENCY, AND UNIVERSITY INTERNSHIP AGREEMENT

Policies and Guidelines

Site/Agency Supervision

Supervisors initials _____

1. The student's immediate on-site agency supervisor is in a regular position, employed in Therapeutic Recreation/Recreation Therapy by the agency and is currently certified by NCTRC at the Therapeutic Recreation Specialist Professional Level.
2. The student's agency supervisor is their immediate supervisor during the internship experience. Current certification indicates that the supervisor is "actively" certified from the date the student begins the internship experience through the date of completion.
3. Daily contact between the agency/site supervisor and the student is highly desirable. In addition, the agency/site supervisor and student agree to meet regularly to discuss student goals and objectives, performance and training and provide on-going mentorship.

Student

Students initials _____

1. Student will register for TREC 4550 (X or XA) – Practicum in Therapeutic Recreation.
2. The student will abide by the policies and procedures of the agency, including those dealing with patient confidentiality. Students will prepare and send to their academic supervisor all written requirements as outlined in the course outline.
3. The student is responsible for keeping informed and for following through on details relating to the fulfillment of any requirements expected of him/her regarding graduation.

Additional Concerns

1. A midterm and a final evaluation report form will be provided by the student at the beginning of the term with the identified deadlines. The agency/site supervisor will discuss the results of the evaluations with the student, have the student sign the forms and the agency supervisor will return the evaluation form within the designated time period to the academic supervisor.

Liability

1. While enrolled in the internship component of their University program, students are covered under Workers' Compensation Board of Alberta. Students will be covered under the extension of the student coverage for students attending the University of Lethbridge as defined in the Post-secondary Learning Act (under (Section 7(1) (c) of the Alberta Workers' Compensation Regulations).
2. Students are responsible for their own automobile and property insurance.
3. Students are also covered by the University of Lethbridge's liability insurance policy and errors and omissions policy.

Student

SMART GOALS

Prepare a minimum of five (5) SMART goals to achieve during your internship experience. Review the five goals with your site/agency supervisor before submitting them. **Due at the end of Week 2.**

Specific – What are the specific things you want to learn or improve at? When? Where? What?

Measurable – Statements need to be specific enough to measure effectively. Consider how you will enable the outcome when preparing the goals.

Action oriented – What's your plan to make the goal a reality?

Realistic – Realistic objectives are those that are within your potential knowledge, skills/ability, & needs.

Time bound – There must be an end date to your goals.

Professional Smart Goal (needs to directly relate to TR service). Example:

By the end of Week 6, I will have completed 3 TR assessments on 3 different clients/patients with minimal assistance from my site/agency supervisor.

EVALUATION OF PROFESSIONAL AND PERSONAL SMART GOALS

Student Name: _____

At the beginning of the internship, five (5) SMART goals were identified – some of these may have been related to specific project assignments, and others were related to personal learning goals to be achieved during the internship. It is best if there is discussion between the agency/site supervisor and student about the progress made regarding these goals before this evaluation form is completed. To be filled out by agency/site supervisor.

Please briefly state each of the basic goals, then assess the student achievement within each established professional and personal goal and objectives based on such factors as:

- Satisfactory progress toward achievement of goals
- Evidence of successful completion or achievement
- Changes made to original targets or projected outcomes
- Achieved targeted dates and outcomes
- Assessment of why targets were not met
- Plans developed for changing or overcoming obstacles to ensure targets were met

GUIDE TO SELF-REFLECTION

Reflective practice is a valuable tool in your growth as a recreation therapist. During your learning experience, it is important to reflect about on the job experiences of your day or week. Writing allows you to think about what you did, how you performed, what you learned from the experience and what you would do in a similar situation.

You are asked to complete ten (10) self-reflection forum posts for weeks 3-12 [one reflection per week]. Additionally, students are required to post a response to at least one of their peers posts each week. Each week, your original reflection post, and your peer response are due Sunday's at 11:59pm MST/MDT. You are also expected to respond to any question or discussion that arise from peers or the academic supervisor. This will enhance the forums and provide a chance to stay connected to your peers. The questions will focus on the internship experience and your reflection on your own experiences. Each week your submissions will be evaluated and given a mark of 0-2%.

Mark	Description	Indicators
0	Non reflective	The original forum post and peer response in the learning discussion is either irrelevant to the question or no entry is written for the question.
1	Minimal insight on thinking and acting	The original forum post and/or peer response states common sense thinking and acting which was derived from habitual or routine action. It is intuitive and pre-reflective. No further reasoning or explanation is given to the entry.
2	Thorough reflection and self-improvement	The original forum post and peer response demonstrates a more self-reflective grasp of the nature of the knowledge, how knowledge functions in action and how it can be applied to various practical applications. It could also show the transformation of the writer's thinking or beliefs.

DOCUMENTATION OF INTERNSHIP

Job Analysis Task Domains: An acceptable internship is defined by the therapeutic recreation process as delineated in the NCTRC Job Analysis Task Areas. The NCTRC Job Analysis Task Domains are:

- | | |
|--------------------|---------------------------------|
| 1. Professionalism | 5. Evaluation and Documentation |
| 2. Assessment | 4. Implementation |
| 3. Planning | 6. Administration |

Instructions: In the table below, list the weekly dates and daily hours under each day of each week. List total weekly hours in the second to last column. You must submit a copy of your internship time logs if a range of hours per week is provided.

Note: Internship students follow the schedule that the agency CTRS supervisor works. For example, if the agency CTRS supervisor works from 8-4:30 (8 hours), but actually works and gets paid for 7.5 hours due to an unpaid 30 minute lunch break, then the student would also count 7.5 hours (not 8 hours).

INTERNSHIP EVALUATION

A benchmark for any profession is its ability to routinely monitor its own practice through an ongoing process of self-regulation. Paramount to this process is the establishment of a credentialing program that enabled the profession to safeguard consumers by stating who is competent to practice. The establishment of a valid job analysis is essential to the integrity of a credentialing program and an exam program.

In 2021, NCTRC completed its fifth Job Task Analysis study. The list of tasks below is the current tasks performed by the Therapeutic Recreation Specialist. These job tasks represent the therapeutic recreation process and will be the basis of the Internship Evaluation. Certain questions were omitted as they are not applicable for students in the internship experience.

Mid-term assessment (Week 8) Final assessment (Week 15)

Supervisor: _____

Performance Evaluation Criteria

Professionalism				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Communicate with interdisciplinary teams (e.g., team meetings)				
Educate internal/external stakeholders about the scope of RT/TR practice				
Advocate for client's rights with interdisciplinary team, clients, and families				
Understand trends RT/TR practice (e.g., EBP)				
Apply concepts of cultural competence (e.g., inclusion)				
Comply with professional Code of Ethics				
Comply with professional Standards of Practice				

Assessment				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Establish a therapeutic relationship with clients (e.g., professional)				
Apply knowledge of diagnostic and developmental characteristics (e.g., impairments)				
Determine assessment tools to establish outcomes				
Gather primary data across functional domains				
Gather secondary data (e.g., charts, medical records, etc.)				
Use findings from data gathered to determine strengths and limitations				
Prioritize client needs and strengths				
Create goals and objectives based on assessment data				
Communicate assessment data to interdisciplinary team/other service providers and client				

Planning				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Utilize RT/TR service delivery models (e.g., LAM, LWM, etc.)				
Utilize theories of practice (e.g., person-centred care)				
Align goals and/or objectives to support service delivery				
Design programs based on needs, interests, and abilities				
Engage in logistical program planning (e.g., accessibility)

Develop discharge/transition plans				
Communicate with interdisciplinary team/service providers on client progress				
Conduct summative evaluation of program effectiveness				
Identify policies and procedures for reporting specific incidents				
Document specific details of incidents				

Administration				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Follow service plan of operation (e.g., program schedules)				
Adhere to agency policies regarding program and client documentation (e.g., timeliness, quality improvement plans, etc.)				

Adhere to agency fiscal management (e.g., budgeting requirements, funding, etc.)				
Identify provincial, regional, federal regulations pertaining to RT/TR services				

Evaluation—Personal and Professional Qualities of Student

Please ensure to be as detailed as possible with describing student strengths and improvements needed.

I -Major strengths observed at the present time:

II -Most important improvements needed at the present time:

FINAL EVALUATION GRADE SHEET

*** Based on the experience to date, is _____ (student's name) capable of undertaking the responsibilities of an entry level professional?**

Yes

No – If no, please comment: _____

Student Intern's Signature

Site/Agency Supervisor's Signature

Academic Supervisor Signature

*** THIS SECTION (FINAL EVALUATION GRADE SHEET) IS INCLUDED ONLY IN THE FINAL EVALUATION**

Faculty of Health Sciences

Consent for Collecting and Disclosing Student Information and Acknowledgment of Procedures for Practicum Placement

This consent form outlines the process for collecting and sharing personal student information within the Faculty of Health Sciences as well as with prospective practicum agencies. Any questions about this form can be directed to the Internship Specialist (403-329-2576).

Last Name	First Name	Middle Initial
University of Lethbridge Student ID Number		

PLEASE READ THE FOLLOWING BEFORE SIGNING BELOW

Regarding collection and disclosure of my personal information, by signing this form:

- I authorize the Faculty of Health Sciences to collect and disclose information about me with administration, faculty, and support staff, practicum site administration, teaching and support staff, and others as appropriate. Types of information may be information about my name, practicum placement requirements, learning needs and goals, and other information, as appropriate, for my success in the program.
- I understand that this consent is valid for the period leading up to practicum placement, and placement process.

Regarding acknowledgement of procedures, by signing this form:

- I acknowledge my receipt and understanding of the terms and conditions of the major as outlined in the Student Handbook, Course Syllabi, and University of Lethbridge Calendar.
- I acknowledge that I am required to have medical and dental insurance (such as the UofL Student Union Health and Dental Plan coverage) over and above any provincial health care coverage which must be valid over the duration of the placement.
- Further, I understand that failure to meet requirements (e.g., health requirements, police information check, current First Aid and CPR, or any additional documentation that is required by program/agency) for practicum placement may result in my practicum placements not being facilitated.

Protection of Privacy - The personal information requested on this form is collected under the authority of Section 33 (c) of the Alberta Freedom of Information and Protection of Privacy Act ("Act") and will be protected under Part 2 of the Act. The information is collected for the purpose of practicum placement processes. If you have any inquiries in regards to the collection of your personal information, please direct those inquiries to: FOIP Coordinator, University of Lethbridge, 4401 University Dr. West, Lethbridge, Alberta T1K 3M4, telephone: 403-332-4620, email: foip@uleth.ca.

**TO: THE GOVERNORS OF THE UNIVERSITY OF LETHBRIDGE (THE "UNIVERSITY")
INFORMED CONSENT, RISK ACKNOWLEDGEMENT & INDEMNITY AGREEMENT**

WARNING: By signing this document you indicate that you understand the risks associated with the Course activities and that you are aware that by registering in the course and attending its off-site activities you are being exposed to the risks identified below. **It gives the University authority to secure medical assistance for which you agree to be financially responsible.** You are also agreeing to assume financial responsibility for any damage to other parties to which you are legally liable.

PLEASE READ CAREFULLY!

Participant Name: (Please Print) _____ Student ID#: _____

Address of participant: _____ Semester: _____

THE COURSE:

Enrollment in _____ (course) at the University of Lethbridge involves the opportunity for students to work with individuals, organizations, or community groups to demonstrate and meet the core competencies and/or course requirements of their respective program in a practical work environment. Students are further required to arrange their own transportation to attend the off-campus practicum setting(s), all hereinafter collectively referred to as "the Program".

ASSUMPTION OF RISKS:

Prior to signing this agreement, I understand and agree that there are hazards and risks inherent to my participation with the Program and its off-campus course activities, any of which could cause me bodily injury or permanent disability or loss of life and/or loss or damage to my property: These include but are not limited to:

- a) Travel and transportation by all modes and types and risk of motor vehicle collision, mechanical failure, and human error;
- b) Risks and hazards associated with other premises, their operations and acts or omissions of others;
- c) Potential for theft, vandalism, damage, or loss of personal property; and
- d) Risk of exposure to pathogens including those of Covid-19 and its variants and the contraction, transmission, or lingering effects of disease.

In consideration of the UNIVERSITY accepting my course registration in the Program and permitting me the opportunity to participate in the Program activities, I hereby agree:

- 1. That the University or the off-campus placement site may summon such medical advice and services as it, in its discretion may deem necessary for my health and safety and I shall be financially responsible for such advice and services. I also appreciate that as a student enrolled in the course that I may have certain benefits under the auspices of Alberta Learning and worker's compensation; and
- 2. That if I am supplying my own equipment or driving myself for the off-campus course activities, that I am responsible for ensuring that my property is secure, maintained and adequately insured to cover off any liability, loss or damage and appreciate the University of Lethbridge accepts no responsibility for any liability, loss or damage resulting from any use or misuse therein; and
- 3. **I agree TO HOLD HARMLESS AND INDEMNIFY** The Governors of the University of Lethbridge from all liability for any damage to the property of, or losses or personal injury to any third party resulting from my participation in the off-campus course activities for which I am legally liable and to which the University's insurance program does not extend coverage to.

I CONFIRM THAT I AM 18 YEARS OF AGE OR OLDER, THAT I HAVE HAS SUFFICIENT TIME TO READ AND UNDERSTOOD THIS AGREEMENT AND THAT I AM AWARE BY SIGNING THIS AGREEMENT I AM ACCEPTING FINANCIAL RESPONSIBILITY FOR ANY PERSONAL PROPERTY EXPOSURES, MEDICAL ASSISTANCE THE UNIVERSITY or PLACEMENT SITE MAY DEEM NECESSARY FOR MY HEALTH AND SAFETY AND ALSO FOR ANY DAMAGE TO THIRD PERSONS OR THEIR PROPERTY THAT I MAY CAUSE.
