## Bachelor of Arts

### English

English is not just about the rhetorical and creative aspects of literature. It's about examining history, culture, psychology, sociology, philosophy, and the human condition to determine what a text means in the context of when and where it was written, and how it relates to us today. Learn how we use language in the world at large, and consider the functions, structures and significance of literature over time. Develop an excellent foundation for a career in virtually any professional capacity due to the cross-disciplinary nature of this program.
